# 4th Annual Spay-ghetti Dinner

Fundraiser & Awareness Event  
Benefiting **Washington County SPCA**

Dear Friends,

Thanks to the support of businesses like yours, the **Washington County SPCA** makes a positive difference in the quality of life for both animals and humans in our community. In 2022 alone, 2,013 animals were taken off of the streets or from families who could no longer care for them. Of those animals, 1,160 of those were adopted out, 159 were reclaimed by their families, and 214 were transferred to other adoption partners. We performed over 1,000 spay and neuter surgeries which will keep thousands of unwanted puppies and kittens from populating our county. A well-functioning animal shelter like ours is a necessary service for any community. Without it, stray animals roam the streets posing health and safety hazards to adults and children, and animals who have no one to care for them suffer needlessly.

The **Spay-ghetti Dinner** is Washington County SPCA's signature fundraising event and will market your brand and products to over 13,000 of Washington County's most caring, compassionate, and community-minded people and their friends. The event will take place for the fourth time on **March 31, 2023**, at the **Hilton Garden Inn**, where you can network and reach over 300 Spay-ghetti Dinner attendees. Business sponsorships are available for local companies to show their support for animal welfare in our community. Details of those opportunities are included in this packet. We hope that you and your company will consider sponsoring. I am happy to address any questions or concerns.

If for some reason an event like Spay-ghetti Dinner isn't part of your company's giving strategy, but you would like to learn about other opportunities to give back to the shelter or get your employees involved in our mission, feel free to reach out to me. I would be happy to learn more about your vision for community engagement and how we can work together to make Bartlesville a happier place for people and pets.

Together, we are making a difference in our local communities by saving the sick, sheltering the homeless, reuniting the lost, adopting the hopeful, educating the public, and helping to control the spread of preventable diseases and local pet overpopulation.

Please consider joining Washington County SPCA in our efforts to create a community where all dogs and cats have safe and loving homes.

Sincerely,

Tonya Pete  
CEO
